Save the date

electronica | World’s leading trade fair and conference for electronics

Date: Nov 10 - 13, 2020

Advisory Board

As representatives of the exhibitors, the Advisory Board helps us to optimize electronica in keeping with market requirements. The Advisory Board also works on the international trade fair's future development and orientation.

Christian Rössler
Schweizer Electronic AG
Premium partners

International publishers and trade publications help us and support our program of related events by providing their know-how. The result: a transfer of knowledge that is up to date and rich in content.
Cooperation partners

International trade associations, organizations and interest groups support us and are a direct link to the industry. This guarantees that electronica always keeps an eye on the latest market developments and can adapt its structure accordingly.
